

WINTELLECT

Investment architecture of the new era

Do you want to make money from sports betting,
but don't understand the games and statistics?

We have created a unique betting model that allows you to
generate a stable income in one of the most profitable
niches — sports betting.

Works for your profit

Working model

01

We are not a bookmaker

All bets are handled through licensed partners only; we do not accept wagers directly.

02

Investment fund with management

You entrust us with your funds — we make decisions aimed at minimizing your risks.

03

Stable returns

Earnings are generated not by one game result, but through strategy and diversification.

04

Highly efficient AI model

AI technology delivers up to 100% profit on the first day. For instance, investing \$1000 can result in up to \$1000 net profit within 24 hours thanks to precise automated trading.

05

How profits are used

The generated profit is allocated as follows:

- Gradual payouts to investors according to the selected strategy.
- Maintaining capital turnover and ensuring system stability.
- Financing partner rewards and promoting Betronomy.

Legality

Our company is not a betting operator: we neither accept client wagers nor generate odds. As such, our activities do not require bookmaker licensing and fall outside the scope of gambling regulations.

Legal position:

 France According to the Internal Security Code	 Russia according with Federal Law No. 244 of December 29, 2006	 Italy according with TULPS and ADM standards
 Germany according to the State Treaty on Gaming 2021	 Spain according with Law 13/2011	

Closed investment model

Our model is based on the principles of a closed fund, not an open bookmaker. This means:

Customers do not place bets directly

Investors receive a fixed return or a share of the profits, regardless of the outcome of specific matches.

All decisions are made within the management company.

About us and our mission

Our team

The team consists of betting experts, data analysts, and software developers who have transformed the chaotic betting market into a clear, structured, and profitable system.

Our mission

make betting an accessible and safe investment tool. We want everyone to be able to earn money in one of the most marginal niches without having to understand odds, teams, and matches.

Key advantage of the company

working with big data and automating analysis using artificial intelligence. We don't gamble — we manage capital based on strict calculations.

You're just investing.

Everything else is our job, from finding opportunities to managing risks. Transparent. Technological. Profitable.

How we make money

Our company operates in three main areas, which help us to earn a stable income and grow our investments.

Arbitrage scanners that automatically search for profitable betting opportunities

Arbitrage bets, or “surebets,” involve placing bets on all outcomes of a sporting event with different bookmakers, ensuring a profit no matter the result. We make this possible through cutting-edge arbitrage scanners that instantly spot profitable situations.

AI bots that place bets themselves according to specified rules

Classical betting, or traditional sports wagering, involves analyzing matches with the help of AI, reviewing statistics, player conditions, and other factors to select the most probable outcome. Unlike arbitrage, there is a risk of losing money if the bet fails, but thanks to our expertise, deep analytics, and AI, we minimize these risks and achieve positive results.

Analytical tools to help assess risks and potential returns

Betting software development.
We create and sell useful tools that make betting easier and more efficient.

How can you earn money?

With years of experience and a strong team, we have developed profitable strategies for investors that provide guaranteed returns with minimal risk. Enjoy stable daily income from both investment strategies and the Betronomy referral program.

The more investors you have in your network, the higher and more stable your income will be.

Refer a friend and receive a percentage of their investment.

When someone opens a strategy and invests money based on your recommendation, you immediately receive a percentage of their deposit amount. This is your referral bonus — no waiting, no complicated conditions.

Earn money every time someone on your team opens a strategy.

Ambassador

Who is an Ambassador?

An ambassador is an advanced role within the affiliate program: not only do you attract new participants, but you also help leaders adapt, grow, and earn. By building your own team of leaders, ambassadors receive additional rewards.

How do I become an ambassador?

To become an ambassador, you need to build a team of at least three Leader-level active partners who have reached a certain stage of business development, and complete the application form on the "Ambassadorship" page of the official website.

Objectives

Ambassador:

Monitor the fulfillment of planned indicators

Lider:

Meet planned targets

Meet planned targets

Individual support

Promotional materials

Chat for active partners and leaders

Additional financial bonuses and incentives, as well as the opportunity to hold various events at the company's expense.

Deposits and withdrawals

Invest in your preferred currency, grow your capital with Wintellect, and withdraw your profits whenever you need to.

You can deposit funds and
withdraw profits in these same currencies.

from \$25

Minimum deposit

from \$5

Minimum withdrawal

from 48 hours

Processing time

Transactions are processed automatically according to
established regulations.
